Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Mr. Fishman called to discuss the prior art rejection. Mr. Dexter maintained his position that magnetic holding devices are old and well known. Mr. Fishman stated that he was looking for guidance in how to obviate the rejection. Mr. Dexter suggested that there are numerous ways to attack the Examiner's rejection; specifically, applicant could argue the rejection (i.e., reasons why the combination is nonobvious), request evidence in support of the Examiner's taking of Official notice, and/or more specifically claim the structure of the invention such as the location/orientation of the magnet.

(A fuller description, if necessary, and a copy of the amendments which the examiner agreed would render the claims allowable, if available, must be attached. Also, where no copy of the amendments that would render the claims allowable is available, a summary thereof must be attached.)

i) ☐ It is not necessary for applicant to provide a separate record of the substance of the interview (if box is checked).
